Monitoring Framework: Regular tracking of compliance, operations, and ethics

Complaint Resolution: Transparent, time-bound grievance process with escalation matrix and periodic audits

05 Training & Competence

Ongoing Training: Regular sessions and technology-driven learning to ensure effective compliance and continuous improvement

RISK MANAGEMENT - KEY RISKS & MITIGATION STRATEGIES

Internal Risks

1

Operational Risk:
Process inefficiencies, compliance failures, IT disruptions
Mitigation:
- ✓ Robust internal controls & SOPs
- ✓ Dedicated Compliance Officer & tech-driven risk tracking
- ✓ Regular compliance training programs

2

Liquidity Risk:
Inability to meet short-term obligations
Mitigation:
- ✓ Adequate capital reserves & liquidity stress testing
- ✓ Structured liquidity management policy

3

Advisory Services Risk:
Poor investment performance impacting capital & reputation
Mitigation:
- ✓ Diversified investments with thorough due diligence
- ✓ Oversight by experienced investment advisers

4

Credit Risk:
Defaults by counterparties
Mitigation:
- ✓ Stringent underwriting and continuous counterparty monitoring
- ✓ Diversification to minimize exposure

External Risks

1

Market Risk:
Economic fluctuations affecting portfolio performance
Mitigation:
- ✓ Defined market risk tolerance & hedging strategies
- ✓ Active economic & financial monitoring

2

Regulatory & Compliance Risk:
Changes in regulations impacting PMS operations
Mitigation:
- ✓ Continuous engagement with legal experts & regulatory audits
- ✓ Compliance framework aligned with applicable IFSC laws

3

Competition Risk:
Increasing competition reducing investor interest
Mitigation:
- ✓ Differentiated investment strategies & strong investor relations
- ✓ Focus on niche market opportunities

4

Cybersecurity & Data Protection Risk:
Data breaches or cyberattacks compromising security
Mitigation:
- ✓ Encryption, multi-factor authentication, penetration testing
- ✓ Compliance with data protection laws (PDPB, GDPR)
- ✓ Cybersecurity training for employees

RISK MANAGEMENT POLICIES & GOVERNANCE

Risk Management Policies

1. **Credit Risk Policy** – Counterparty evaluation & investment security
2. **Market Risk Policy** – Portfolio diversification & stress testing
3. **Liquidity Risk Policy** – Reserve maintenance & cash flow monitoring
4. **Operational Risk Policy** – Internal controls & compliance audits
5. **Underwriting Policy -** Investment evaluation & credit risk assessment
6. **Reserving Policy -** Capital adequacy for unexpected losses
7. **Cybersecurity Policy -** Data protection & IT security protocols

Risk Management Framework & Governance

Risk Management Responsibilities:

- Risk Officer: Compliance Officer (Senior Management)
  - Responsible for identifying, assessing, monitoring, and mitigating risks (credit, market, liquidity, cybersecurity, etc.)
  - Works closely with the Principal Officer to implement risk management strategies

Governance:

- Compliance/Risk Committee: Oversees risk management matters
- Board of Directors: Strategic oversight & risk policy alignment

Risk Reporting Frequency:

- Senior Management: Half-yearly risk review
- Board of Directors: Half-yearly risk oversight
- Independent Risk Audits: Annual reviews

Business Continuity & Disaster Recovery Plan (BCDRP):

- Ensures operational continuity, asset protection, and regulatory compliance in case of disruption
- Proactive crisis management, IT recovery, and robust compliance mechanisms to safeguard business stability and investor confidence

INDUSTRY AND MARKET OVERVIEW

INDUSTRY

1. The Asset and Wealth Management ('AWM') industry has shown remarkable resilience in adapting to changing market conditions and evolving demands of the investor over the years

2. As near- term pressures mount, a new breed of AWM organization is emerging tech-enabled, customer-focused, and prepared to operate across a wide range of asset classes, both within and outside traditional AWM

3. By 2028, we expect the industry will be transformed, and it will be imperative for leadership to adapt accordingly

4. Firms that can effectively leverage technology, build meaningful inroads to new and existing customers, and deliver exceptional client experiences will be well-positioned to thrive in this rapidly evolving landscape.

5. The AWM industry will need to continue to adapt to evolving investor needs and market conditions, while also addressing the shift towards more personalized and digital-first solutions

MARKET

Growth Drivers

- Individual investors are expected to drive the largest surge in demand over the next 2–3 years
- Retail markets offer vast, untapped growth opportunities but come with operational challenges
- Private markets and investment allocation shifts, including ETFs, drive industry growth

Regulatory and Market Changes

- Regulatory changes, such as ELTIF and REITs in 401(k) plans, open private markets to individual investors
- Many firms struggle to provide private market access, hindered by resistance from financial advisors

Technological Advancements

- 90% of asset managers are leveraging disruptive technologies like big data, AI, and blockchain to enhance performance
- Tokenization is increasing market accessibility and simplifying fund infrastructure, with potential for broader applications.

Individualized Indexing

- Individualized indexing is gaining traction among investors seeking tax optimization, ESG alignment, and algorithmic portfolio construction
- Nearly 40% of institutional investors plan to invest in custom indexing products within the next 12–24 months
- Direct indexed assets under management (AUM) are projected to more than triple to $1.47 trillion by 2027, representing 1% of total AUM

High-Net-Worth (HNW) Segment

- High-net-worth (HNW) and mass affluent investors seek differentiated, personalized products
- HNW investors, with assets of $1M+, are projected to control $139.6 trillion by 2027
- Generational wealth transfer ($68 trillion by 2030) boosts demand for ESG, crypto, and private market investments

KEY OBSERVATIONS

Navigating unprecedented change

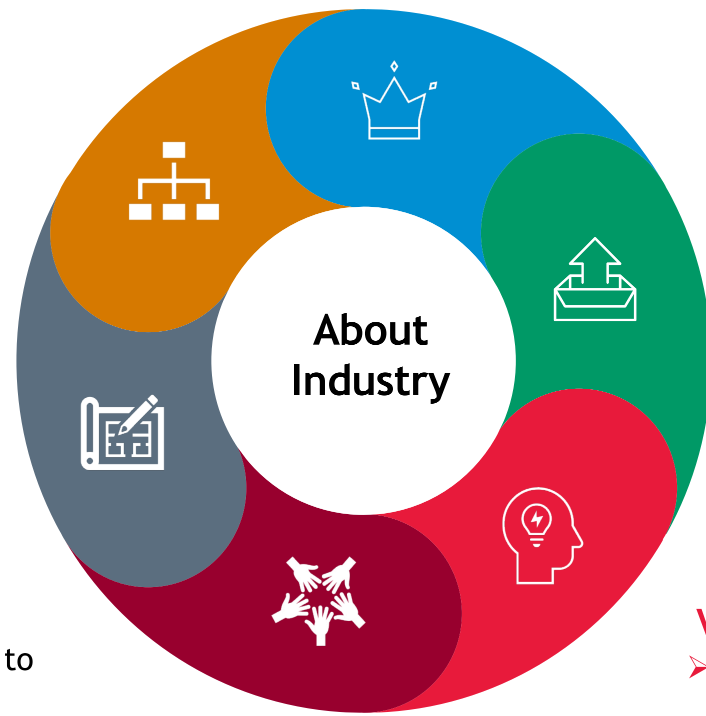
- A US$70 trillion transfer of wealth from baby boomers to millennials will occur by 2030.
- Inflation, volatility and interest rate movements are the biggest concerns for investors and asset managers over the next 2 years.

Future Fee Reductions

- By 2028, the total expense ratio (TER) of active funds is projected to decrease by 12% from 2023, reaching 59 basis points (bps), while passive funds, already lower, will drop by 9%, to 13 bps

Getting closer to the customer

- The large-scale opening of private markets to all types of investors.
- Shifts in investment allocation (including greater demand for ETFs) are transforming the competitive landscape and growth opportunities



Industry Consolidation and Market Share

- Further consolidation is expected within the industry, with the top ten traditional asset managers controlling about 50% of mutual fund AUM by 2027, up from 42.5% in 2020

Scaling despite cost and competition pressures

- Industry concentration picks up speed: the top ten asset managers are expected to control around half of all mutual fund assets globally by 2027
- A more holistic approach to financial wellness: banking and insurance large solutions through M&A, joint ventures or its alliances

Vertical Integration for Client Access

- To gain control of distribution and client relationships, AWM firms are likely to pursue vertical integration, combining expertise from private banking, wealth management, and investment performance

KEY TRENDS

1

EXPANSION OF PRIVATE CREDIT

In 2024, the private credit market has shown an upward trajectory, with assets under management (AUM) reaching approximately $1.5 trillion with Global AUM to reach $171 trillion by 2028. This growth was driven by institutional investors seeking higher yields in a low-interest-rate environment

2

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG) INVESTING

ESG-focused investments gained momentum, with global ESG assets surpassing $18.4 trillion in 2021 and projected to grow at a rate of 12.9% until 2026. Europe maintained a leading position, accounting for 84% of global sustainable fund assets

3

FOCUS ON THE MASS AFFLUENT SEGMENT

Wealth managers intensified efforts to serve the mass affluent demographic, recognizing its growth potential. Assets held by mass-affluent investors were projected to grow at a compound annual growth rate (CAGR) of 5.4% through 2028

4

CHALLENGES IN ESTABLISHING WEALTH MANAGEMENT DIVISIONS

Asset management firms faced obstacles in launching wealth management divisions, often due to differences in business models and the need for substantial investments in technology and infrastructure

5

RISKS IN TALENT, GEOPOLITICS AT PLAY

In 2024, a key trend in asset management firms is the divergence of risk priorities based on firm size. Smaller asset managers have prioritized operational risks like leadership stability and talent acquisition, while larger firms focused on geopolitical and macroeconomic uncertainties

6

DIGITAL TRANSFORMATION

The integration of generative artificial intelligence (AI) became a focal point for asset management firms aiming to enhance operational efficiency and client engagement. 75% of wealth management firms planned increased AI investment in 2024

7

M&A ACTIVITY

In 2024, consolidation accelerated as large firms acquired niche players to expand their portfolios. Cross-border transactions increased, driven by regulatory changes and evolving global investment dynamics

8

SUCCESSION PLANNING CONCERNS

The industry is facing succession planning challenges, exemplified by BlackRock's CEO, Larry Fink, who, at 72, shows no indications of stepping down, raising questions about leadership transitions

WHY GIFT CITY?

WHY GIFT CITY?

Efficient Fund Setup & Operations

- Plug-and-play model with service providers like banks, administrators, and trustees
- Access to multiple custodians and fund administrators for compliance and operational efficiency
- Ease of talent migration to GIFT City, enhancing the workforce quality.

Strategic Location

- Seamless connectivity between onshore and offshore operations
- Proximity to investee companies for operational efficiency and oversight.

No Capital Restrictions

- Flexible financial structuring with no capital flow restrictions
- Enhanced freedom for fund managers and businesses.

Supportive Regulatory Ecosystem

- Strong KYC norms and transparent regulatory framework
- Flexible fund structures to foster innovation and growth
- Single-window clearance for fast setup processes.

Tax Incentives & Financial Benefits

- 100% Income Tax Exemption for 10 out of 15 years for FME
- Exemption for specified fund having non-resident investors and investing overseas/ inland debt/derivatives, etc.
- No Goods and Services Tax (GST) on management fees and expenses
- Reduced tax reliance on bilateral treaties, minimizing risks of amendments.

Focus on Climate Financing

- India's commitment to environmental sustainability through G20 leadership
- Government policies promoting renewable energy, energy efficiency, and green infrastructure investments

ASSUMPTIONS

Revenue

SEGMENTS	Subscription Fee	Mgmt Fee, annual	Redemption Fee	Performance Fee	Target Return
Funds - Segment 1					
AIF 1 = Global Mixed & Combined	**1.00%**	**1.50%**	**1.20%**	**10.00%**	**12.00%**
AIF 2 = India Growth	**1.50%**	**1.50%**	**1.20%**	**15.00%**	**16.00%**
PMS - Segment 2					
Individual Account Management	**0.40%**	**1.70%**	**1.20%**	**0.00%**	**n/a**
S1 - Money Market	**0.40%**	**1.25%**	**1.20%**	**0.00%**	**5.0%**
S2 - Balanced	**0.40%**	**1.50%**	**1.20%**	**0.00%**	**9.0%**
S3 - Growth	**0.40%**	**1.60%**	**1.20%**	**0.00%**	**15.0%**

The financial model has been prepared based on the calendar year, with the reporting period running from January 1 to December 31

New AUM Raised in 1st year 40,00,000

A. Individual Account Management Revenue in 1st year

Subscription Fee = 0.40% * 40,00,000 = **16,000**

Management Fee on AUM managed at the end of 1st year = 50,00,000 * 1.7%/12 = 7,083

Revenue 1st Year = 16,000+7,083= 23,083

B. Investment Advisory Revenue

Investment Advisory as % of AIFM & PMS = 2% of 16,000 = 320

2% of 7,083 = 142

Revenue 1st year= 320 + 142 = 461

Total Revenue 1st year A+B = 23,545

From Year 2 AUM would be raised in below segments, Revenue calculation would be applied based on above chart. For detailed calculations of all years refer to the Financial Model

- AIF 1
- Individual Account Management
- S1- Money Market
- S2- Balanced
- S3- Growth.

ASSUMPTIONS

Direct Sales Cost

Particulars	Price	Note
Direct Sales Expenses	3.5%	Of Revenue

Direct Sales Cost for 1st year = 3.5% * 23,450 = **824**

For year 2, 3.5% would be applied on year 2 revenue. For detailed calculations, please refer to the financial model

Legal & Other Professional Services

Legal and other professional services	Value	p.a. Rise	Note
Legal services	**1%**		*Of revenues*
Financial Data Vendors		3%	*Monthly*
Teletrader WorkStations	**150**		
Teletrader WebStations	**399**		
Additional costs TeleTrader	**50%**		*Assumption of 50% share of combined stations subscription value*
External Audit	**10,000**	3%	*p.a. Increase*

Legal Cost for 1st year = 1% * 23,450 = 234
Other Professional services each month = 150+399+0.5(150+399)= 824
Total Legal & Other Professional service Expense for 1st Year = 5,176

For year 2, audit fee will also be applied after the completion of year 1. For detailed calculations, please refer to the financial model
