

The AI-Powered Digital Family Office

Institutional-Grade Wealth Management
For the Next Generation

Agentic AI ● Tax Alpha ● Alternative Access ● GIFT City Gateway

The entire pitch in one line: Our three "alpha" moats

November 2025

ACT 1

The Hook & The Problem

Why Now? Why AI? Why Us?

AI is the New Alpha

Fund Managers Outperformed

93% of fund managers

600% Outperformance Potential

Source: Stanford University Study, 2024

This is not theoretical. This is happening now.

The Wealth Management Market is Switching Now

Planning to Switch Advisors

Planning to switch advisors in next **1-2 years**

The largest wealth transfer in history is creating unprecedented opportunity

0%

Already switched or added provider (last 3 years)

2x

Under 55 switch at twice the rate

Once-in-generation window to capture share

Source: PwC HNW Investor Survey, 2022 | **\$107T** in US HNW wealth + **\$124T** wealth transfer in motion

Why They're Switching: The Three Failures

The "Alpha Gap" - What HNWIs Want vs What They Get

✗ Traditional

Tax: Reactive, annual-only TLH

Alternatives: Gatekept by minimums

India: Too complex, too slow

✓ What HNWIs Want

Tax: Proactive, daily optimization

Alternatives: Curated, accessible

India: Simple, tax-efficient access

Traditional advisors can't scale these solutions. AI can.

ACT 2

The Solution

The AI-Powered Digital Family Office

Introducing Your AI Digital Family Office

Not Another Robo-Advisor

A complete family office with an AI Investment Committee available 24/7

AI Investment Committee

- Chief Investment Officer
- Tax Attorney
- Research Analyst
- Risk Manager
- Alternative Investment Specialist

Always Working For You

- Real-time analysis
- Proactive recommendations
- Instant execution
- Continuous learning

Premium Platform Preview

**100% OPERATIONAL
TODAY**

Real portfolio dashboard • AI consensus • Live execution

Not a Chatbot. An AI Investment Committee.

How Agentic AI Changes Everything

The Old Model

Single Advisor Bottleneck

- Quarterly meetings
- Limited time
- Generalist approach
- Human biases

Our Model

AI Agent Swarm

- 24/7 availability
- Specialized expertise
- Continuous monitoring
- Data-driven decisions

5 Specialized Agents Working Together vs 1 Generalist Working Alone

Our Moat: Three "Alpha Agents" Solving The Three Failures

Each agent directly answers one pain point from Slide 4

Tax Alpha Agent

Daily Tax-Loss Harvesting
+1.8% annual return recovery

Competitive Edge:
Wealthfront does monthly.
We do daily.

Alternative Asset Agent

AI Due Diligence
16,000+ funds analyzed

**Unlock: +300-500bps
potential alpha.**

India Gateway Agent

GIFT City Access
0% tax, USD-based

**Unique: Only AI platform
with automated GIFT City
access.**

Each agent creates measurable alpha. Together, they're unstoppable.

ACT 3

The Deep Dive

The Moat & The Technology

India: A \$5T Market, Locked by Red Tape

The Old FPI Route

Complex Red Tape

Heavy FPI compliance burdens, multi-month setup

Crippling Tax

Capital Gains Tax + STT drag performance

Currency Risk

INR depreciation erodes returns

Repatriation Nightmare

Slow, restrictive capital movement

15%

of HNW portfolios want India exposure

Only 3%

have it

The barriers are too high. Traditional advisors say "too complex."

Our Solution: The GIFT City "AI Gateway"

The GIFT City Solution

Direct Access via IFSC

Streamlined setup for foreign investors

0% Capital Gains Tax

No CGT, no STT - keep all your gains

USD-Based Trading

Eliminate currency risk entirely

Free Capital Movement

Instant repatriation, no restrictions

+300bps

in returns

(JPMorgan Research)

NSE IFSC Volume Up 400% YoY

Market validation of GIFT City route

EXCLUSIVE: One of only 3 platforms with this capability

Our AI Agent Makes It Simple

The AI Experience

User:

"I want 5% India exposure but worried about tax and currency. What's best?"

AI Gateway Agent:

"Use GIFT City gateway - USD-denominated Indian equity funds with 0% Indian capital gains tax."

Recommendation

Action: 5% to Indian Equities

Vehicle: ABC India Flexi Cap (USD)

Route: GIFT City (NSE IX)

Tax: 0% | **Repatriation:** Unrestricted

What This Agent Does

Automated Compliance

Manages cross-border AML/KYC checks, regulatory filings

Tax & Route Optimization

Analyzes FPI vs GIFT City for best after-tax path

Seamless Execution

End-to-end investment, monitoring, rebalancing

Only AI platform with automated GIFT City access

Our "Tax Alpha" Agent: Daily vs Annual

What Others Can't Do

The Problem

- Wealthfront/Betterment: **Monthly** TLH
- Most RIAs: **Yearly** TLH
- Miss 80% of opportunities

Our Daily TLH

- Scans **every market day**
- Wash-sale-aware trades
- **2-4x more savings**

Smart Offsetting Strategy

- Short-term gains (37% tax) first
- Then long-term gains (20%)
- Maximizes tax alpha per trade

The Impact

+1.8%

Additional Annual Return

Yearly TLH (Traditional)

+7.0%

Daily TLH (Our AI)

+8.8%

On \$10M Portfolio

\$180K/year

Additional tax savings vs traditional yearly harvesting

Based on JPMorgan research on tax-loss harvesting frequency and alpha generation

Our "Alternative Asset" Agent: AI Due

Our Alternative Asset Agent. AI Due Diligence

Unlocking Private Markets

The Problem

80% of alternative investment data is trapped in 100-page PDFs.

Traditional due diligence requires expensive analyst teams.

AI Deal Memo Example

Acme Private Credit Fund IV

Overview

Direct Lending Strategy

Target IRR: 12-14% | Term: 7 years | Min: \$250K

Terms

Management Fee: 1.5% | Performance: 20%

Quarterly distributions

Risk Assessment

⚠ Credit Risk: Medium

✅ Market Risk: Low

⚠ Liquidity: High

SUITABLE

Fits 15% alternative target allocation

Our AI Solution

Reads & Synthesizes

Ingests 100+ page offering docs, extracts key data

Generates 1-Page Memos

Overview, terms, risks, suitability in digestible format

Tracks Performance

Ongoing monitoring and portfolio integration

Result: Institutional DD without the analyst team

Our "Brain": A Swarm of 20+ Specialized Agents

The Full Agentic Architecture Powering Your Wealth Management

Multi-Agent Investment Intelligence System

Not a Brokerage

- Pure AI intelligence
- Broker-agnostic

AI Platform

API Layer

IB

Alpaca

TD

Schwab

Market Data

Strategist Agents

Buffett, Graham, Lynch philosophies

Analyst Agents

News, sentiment, technical analysis

Portfolio Agents

Risk, rebalancing, execution

Specialized Agents

Tax, alternatives, India gateway

ACT 4

The Proof

Validation & Traction

Real Journeys, Real Alpha

Three HNW personas showing measurable outcomes

The Journey

Equity Agent:

Analyzes AAPL, recommends covered call strategy for income

Alt Agent:

Scans 200+ PE funds, surfaces top 3 with 1-page memos

Execution:

One-click approval → IBKR execution

After 12 Months:

\$142K

Income from covered calls

\$85K

Tax savings via TLH

\$1.5M

PE allocation (2 funds)

"Speaks my language, my speed"

Two additional personas (Chris – Inheritor, Gal – Tax Optimizer) available in appendix with similar quantified outcomes

This is Not a Concept. Our Core Platform

is Live.

Proven Technology - Real Portfolio - Production Ready

Live Integration

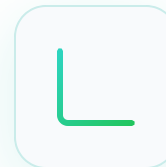

- ✓ Zerodha Kite API (India's largest broker)
- ✓ Real-money test portfolio actively managed
- ✓ Holdings: Adani Ports, ONGC, HDFC Index Fund
- ✓ Multi-broker architecture validated

Production Stack

React 18 + TypeScript
Node.js + Express
PostgreSQL (dual DBs)
FastAPI ML services
LangGraph orchestration
Multi-LLM ensemble

US Market Ready

- ➔ Q1 2025: IBKR integration (sandbox testing)
- ➔ Q2 2025: Alpaca launch (commission-free)
- ➔ Broker-agnostic architecture proven

100% OPERATIONAL TODAY

Why We Win: AI Capability + Global Access

The Competitive Landscape (US Wealth Tech)

Bottom-Left: Robo-Advisors

Wealthfront, Betterment - Commoditized mass market, low tech, no global access

Top-Right: Arta Finance (Validator)

\$90M raised - Validates the agentic AI wealth model, but domestic only

Bottom-Right: Legacy Platforms

Addepar, Black Diamond - High AUM but no AI, outdated tech, domestic only

Top-Right: Our Platform (Winner)

Explainable AI + Broker-Agnostic + Exclusive GIFT City Gateway

Arta proved AI wealth works at \$90M valuation. We add explainable AI + global access moat.

Our Unfair Advantages: The Triple Lock

Three defensive moats protecting our competitive position

Technical Moat

2-Year Head Start

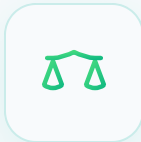

Proprietary agentic AI architecture with 20+ specialized agents

Time to Replicate

24-30 months for competitors to build equivalent multi-agent system

Patents Pending

Core orchestration and consensus algorithms

Regulatory Moat

18-Month Barrier

GIFT City IFSCA license + integration with NSE IX infrastructure

Exclusive Relationships

Early partnerships with GIFT City entities and broker relationships

Capital Intensive

\$2-3M+ required for compliance, licensing, and integration

Trust Moat

Zero Custody Risk

Broker-agnostic model - we never hold client assets

Faster Adoption

No asset transfer required, works with existing brokerage accounts

Incumbent Can't Pivot

Traditional brokers locked into custody revenue model

ACT 5

The Business & The Ask

The Investment Opportunity

A Massive, Combined Opportunity

TAM, SAM, SOM Analysis

Year 3 SOM: \$2.5B AUM = \$12.5M Revenue

Conservative and attainable with current growth trajectory

We Create 10x More Value Than We Charge

Example: \$10M Portfolio

Value Created Annually

Tax Alpha (1.8%)	\$180,000
Alternative Access (3%)	\$300,000
GIFT City Savings	\$120,000
Total Value	\$600,000

Our Fee

Annual Fee (0.75%)	\$75,000
--------------------	----------

Return on Investment

8x

Client gets \$8 for every \$1 paid

Clients see value in their first tax season. Retention compounds from there.

Path to \$1B AUM in 36 Months

Unit Economics

CAC: \$3,500 (blended)
LTV: \$62,500 (10-year)
LTV/CAC: **17.8:1**
Payback: **3.5 months**

Efficiency Score **85%**

Margins

Gross Margin: **93%**
vs Traditional: 40-50%
Break-even: Month 28
Cash+: Month 30

Gross Margin **93%**

Benchmark

Wealthfront: \$1B in 2.5 years
Our HNW model: Faster trajectory
Higher ARPU, better retention

Market Readiness **78%**
