Wealth Portfolio*

AI driven wealthtech
platform offering
holistic personalised
advisory for **everyone**

Executive Summary

Business Model

AI driven wealthtech platform offering holistic personalised advisory services for everyone

Target Market

Initially addressing a market of 1.8mn NRIs in the UK, 32,000 Gibraltar residents and resident Indians for their £20bn offshore investment needs

Institutional Backing

Built on the back of a well established UK-India corridor focused financial services group, Red Ribbon Asset Management Plc

Management Team

Led by senior management team including former head of HSBC Premier UK, managing £40bn comprised of experienced individuals from wealth management, fintech and IT

Fundraise

Raising £1.1million in ordinary shares at a £4mn valuation as a Pre-Series A round with projected ROI of c. 35x in 5 years

Use of Proceeds

Funds raised will be allocated towards tech development, pre launch marketing, working capital and customer acquisition

Problem

Portfolio Amounts

Traditional wealth management firms have a high initial portfolio amount

.....

Investment fees

High management fees on Assets under Advice not including the fees for investments and ongoing costs

.....

Portfolio Rebalancing

Limited ability to react real time to global events and rebalance portfolios

.....

Financial Literacy

Assumption that clients are financially literate to understand the financial products being offered

Low Starting Portfolios

Low and categorised beginner investment amounts for retail, mass affluent and HNW clients

Competitive Fees

All inclusive fees of 1% on Assets under Advice including transaction costs, fund costs and management fees

Agile Portfolio Management

Quick reaction to global events with automated rebalancing of portfolio in time for markets opening using AI

Financial Education

Dedicated section providing learning resources to the clients on financial jargons, products and FAQs simplified

Solution

AI-IFA

Replicating the traditional IFA-Client relationship through an AI driven IFA for the customer's journey on the platform

.....

Holistic Wealth Management

Planning and managing all aspects of the customer's financial needs at different stages of their lives

.....

Young Adults Demographic

Empower and educate young investors to encourage them to plan their financial future

.....

Access to group company services

Offering group company products such as banking, life assurance and crowdfunding to provide the customers a seamless end to end financial solution

USP

AI-IFA™

- 1 Seamless digital customer fact finding
- 2 AI driven portfolio management
- 3 Predictive life financial planning
- 4 Goal Based portfolio creation
- 5 Sustainable investing
- 6 Financial Education

Prototype

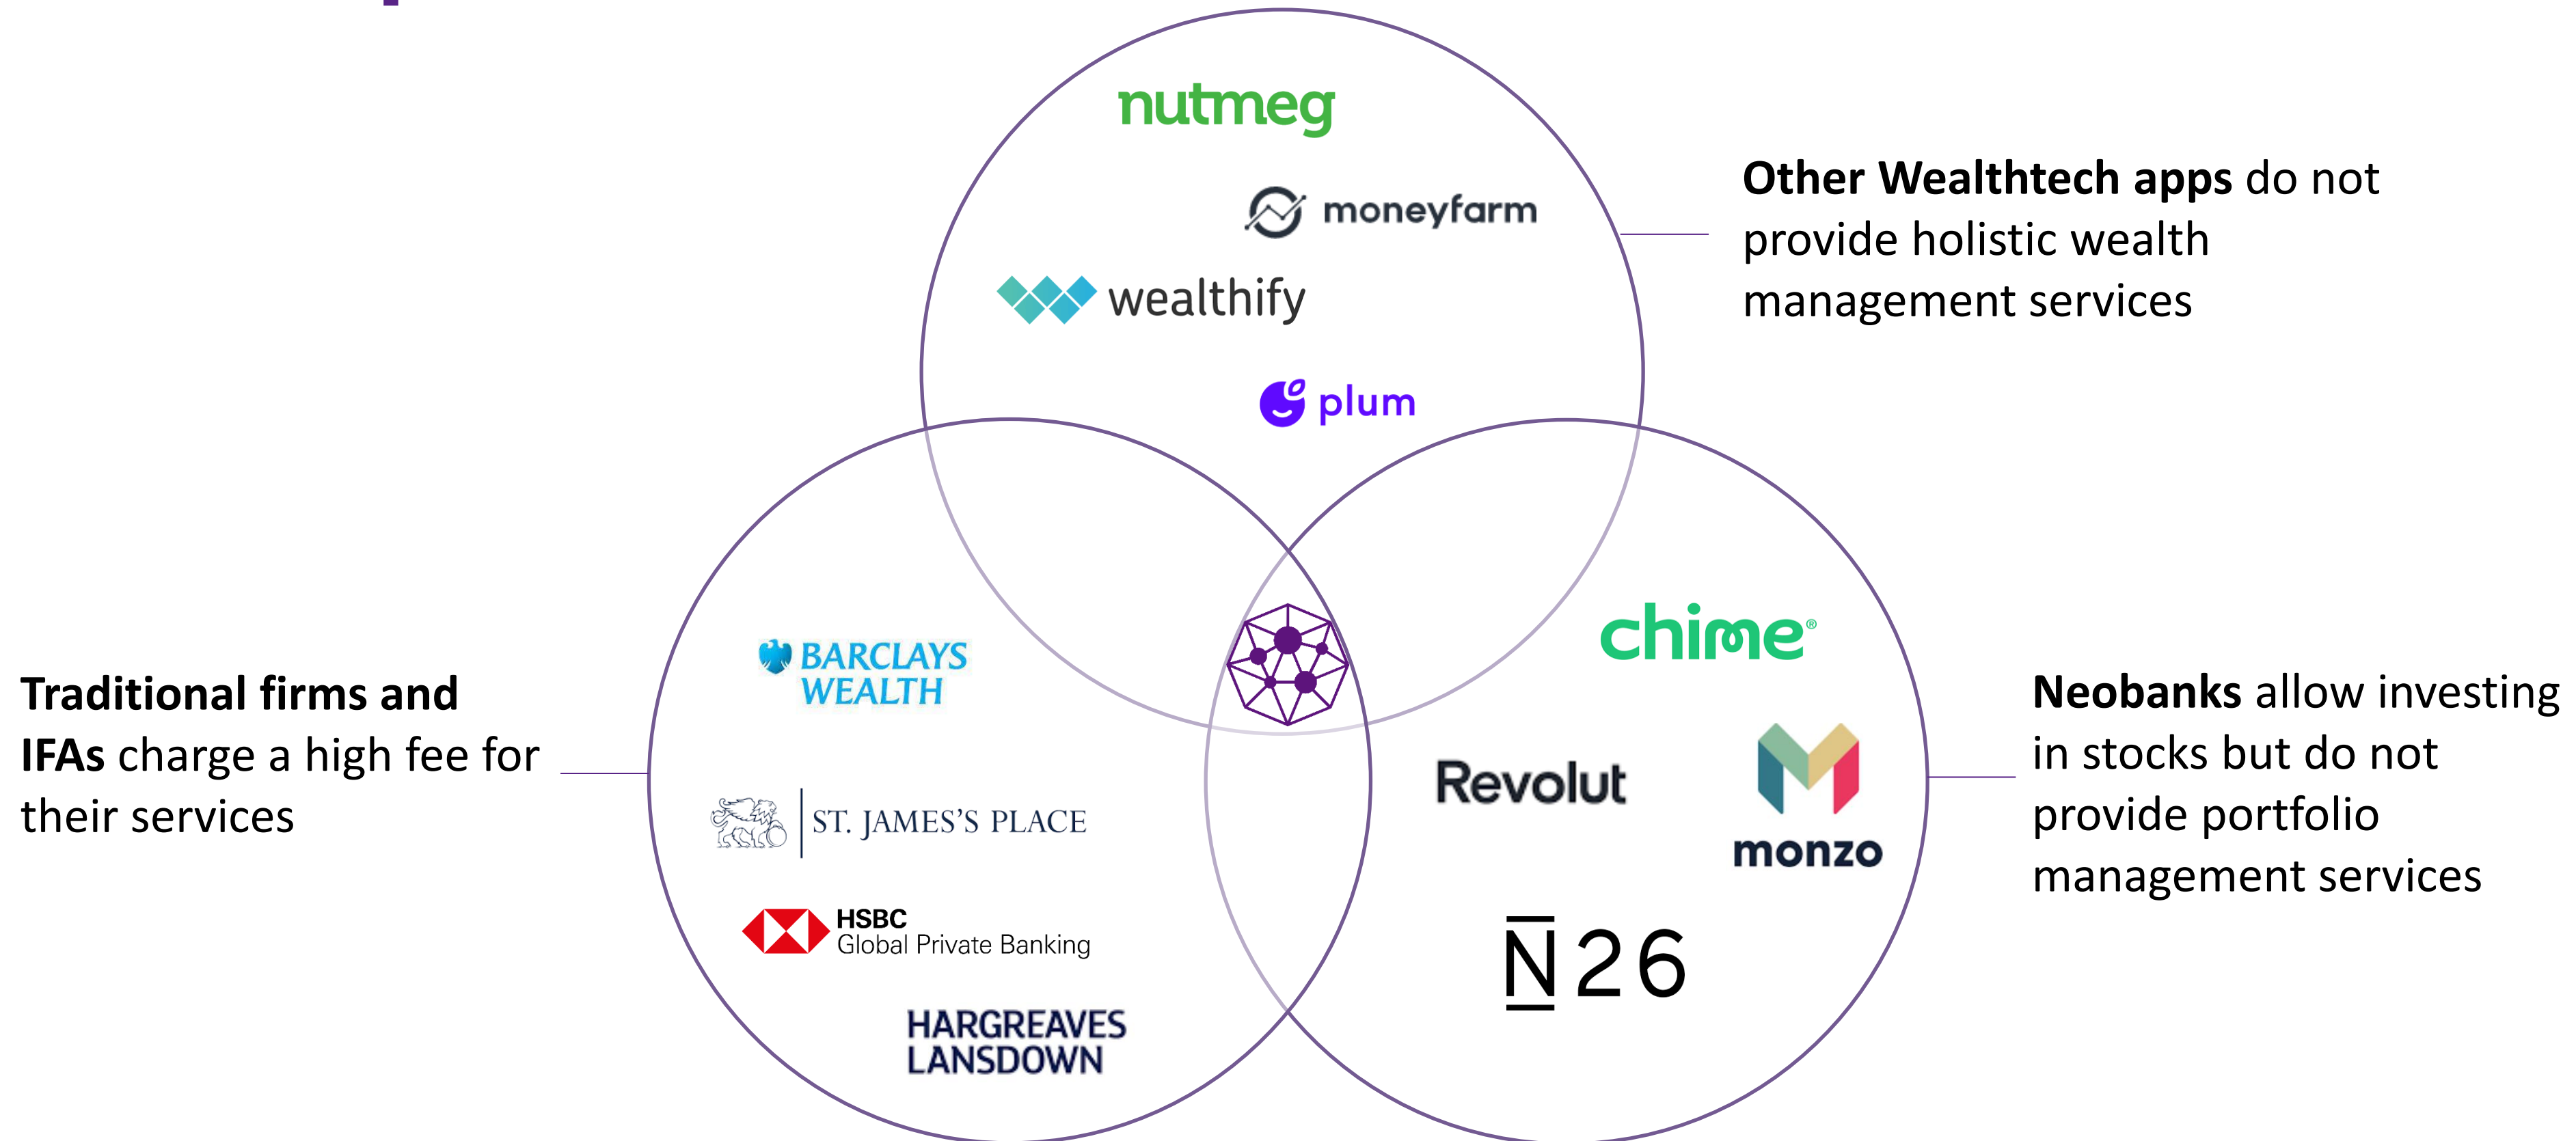

Services

Competition

Target Market

B2C

United Kingdom

Providing the right financial planning tools to the 24 million working age adults who do not feel confident managing their money with an initial focus on the Indian diaspora

India

Providing a platform to actively manage the ca. £1.13 billion invested annually in global equity, debt and real estate by Resident Indians under Liberalised Remittance Scheme

B2B

Independent Financial Advisors

Providing a digital platform to the 20% financial advisors set to retire in the next 10 years to better service their clients and manage the intergenerational wealth transfer

Go To Market

B2C / B2B2C

Direct to Customer

Directly acquire customers with the help of online and offline marketing strategies that are personalised for the target audience

Strategic Partnerships

MOU signed with the largest private health insurer in the UK to offer white-labelled service to their client base.

Intra-Group Synergy

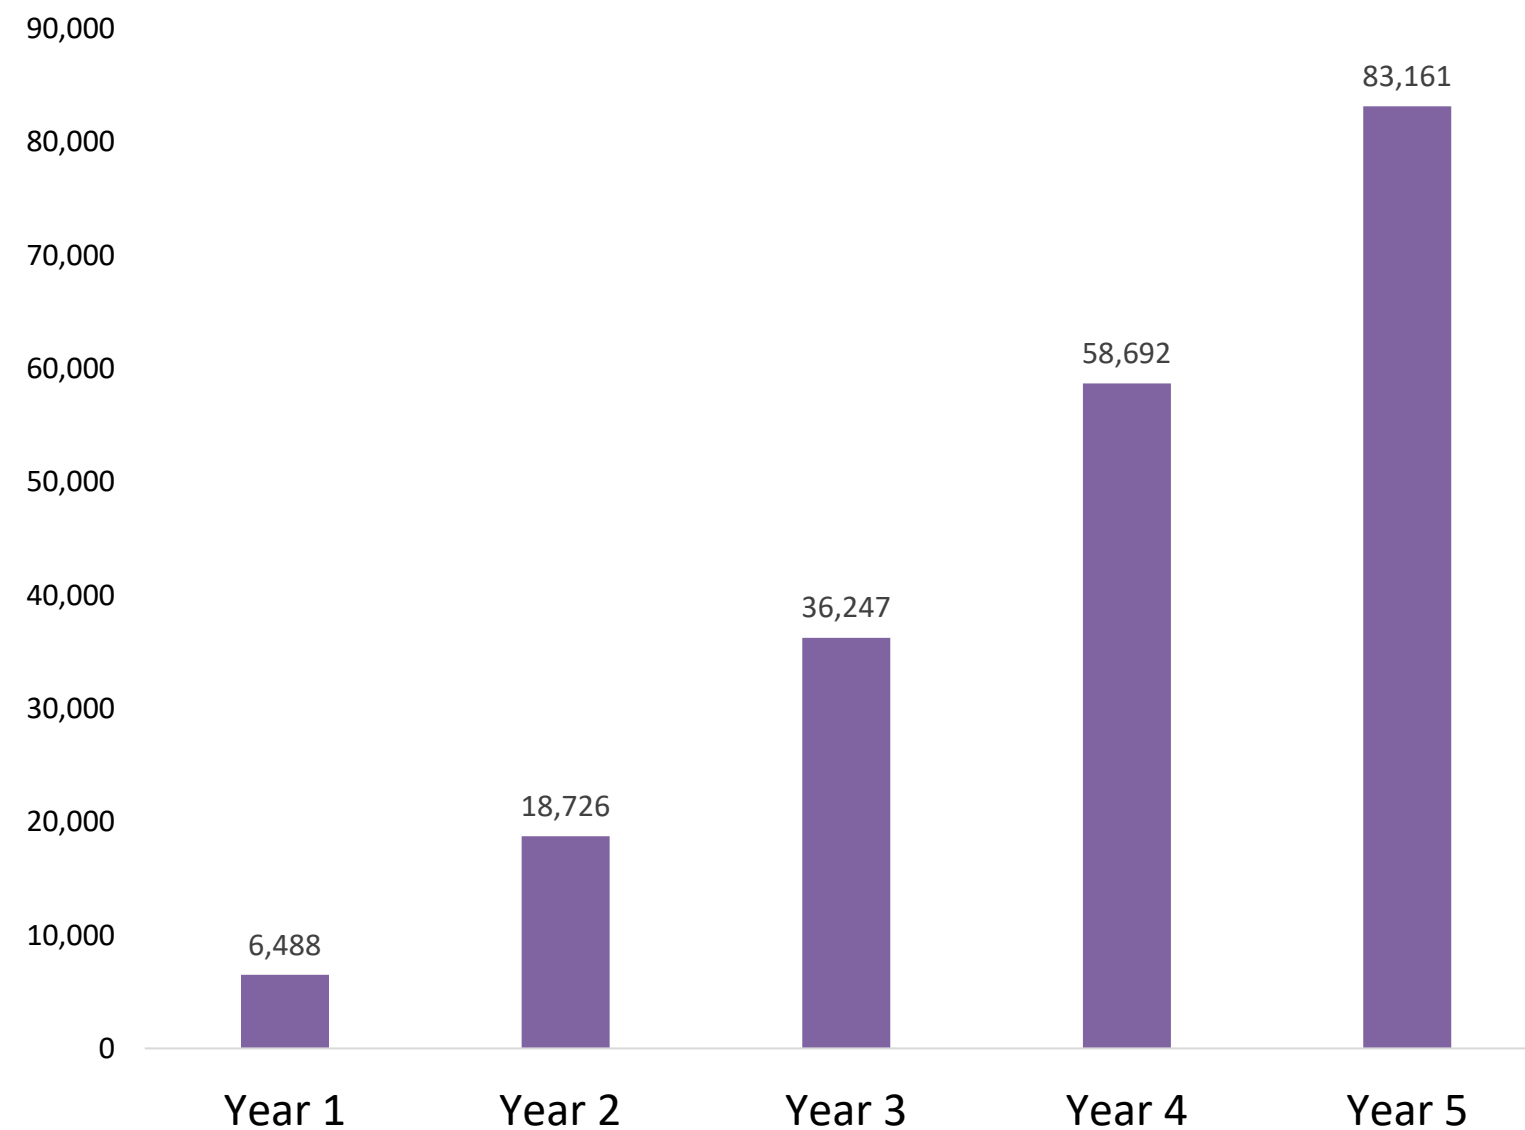

Client sharing arrangement with group companies, Ribbon, a neobank, and Ribbon Life, an insurtech, to refer its customers to Advsr

B2B

IFA networks

Partner with traditional IFA networks and provide the platform as a SaaS, enabling them to service their clients more efficiently, for a fee of the AuA

No. of Customers
