AI System Architecture

Complete Agent-Based Trading System

AI Trading Decision Flow

Note: The system simulates trading decisions; it does not execute live trades.

Strategic Investor Agents

AI agents modeled after legendary investors' methodologies.

Ben Graham Value investing with margin of safety focus. Learn More	Warren Buffett Business quality & competitive moat focus. Learn More
Cathie Wood Disruptive innovation identification. Learn More	Ray Dalio All-weather portfolio construction. Learn More
Stan Druckenmiller High-conviction trading approaches. Learn More	Peter Lynch Growth at reasonable price (GARP). Learn More

Agent Collaboration

- Multi-perspective analysis of investments.
- Consensus-driven insights with weighted importance.
- Critical thinking based on market conditions.

Financial Team Agents

Specialized AI agents for specific financial tasks.

General Financial Analyst Comprehensive market monitoring. Learn More	Market Scanner Technical pattern detection. Learn More
News Analyzer News processing and sentiment analysis. Learn More	Risk Detector Threat identification and protection. Learn More
Earnings Analyst Financial report processing. Learn More	Options Monitor Options flow and activity tracking. Learn More

Processing Workflow

- Data Collection
- Agent Analysis
- Signal Generation

Frontier AI: Agent Swarms & Agentic Trading

Agent Swarm Intelligence

- Harnessing collective intelligence through multi-agent collaboration.
- Distributed financial research across specialized agents.
- Consensus-driven risk assessment and opportunity identification.
- Multi-perspective analysis for reduced bias and enhanced accuracy.
- Dynamic agent allocation based on task complexity.

Agentic Trading Automation

- Autonomous execution with human-guided parameters.
- One-click trading across multiple exchanges and brokerages.
- Automated trade execution based on agent recommendations.
- AI-powered buy, hold, sell signals with confidence metrics.
- Personalized trading strategies with risk-aware execution.

Data Integration

Market Data Sources

- Financial APIs: Real-time market data.
- TradingView: Technical charts and indicators.
- Reuters: Real-time news and events.

News & Sentiment

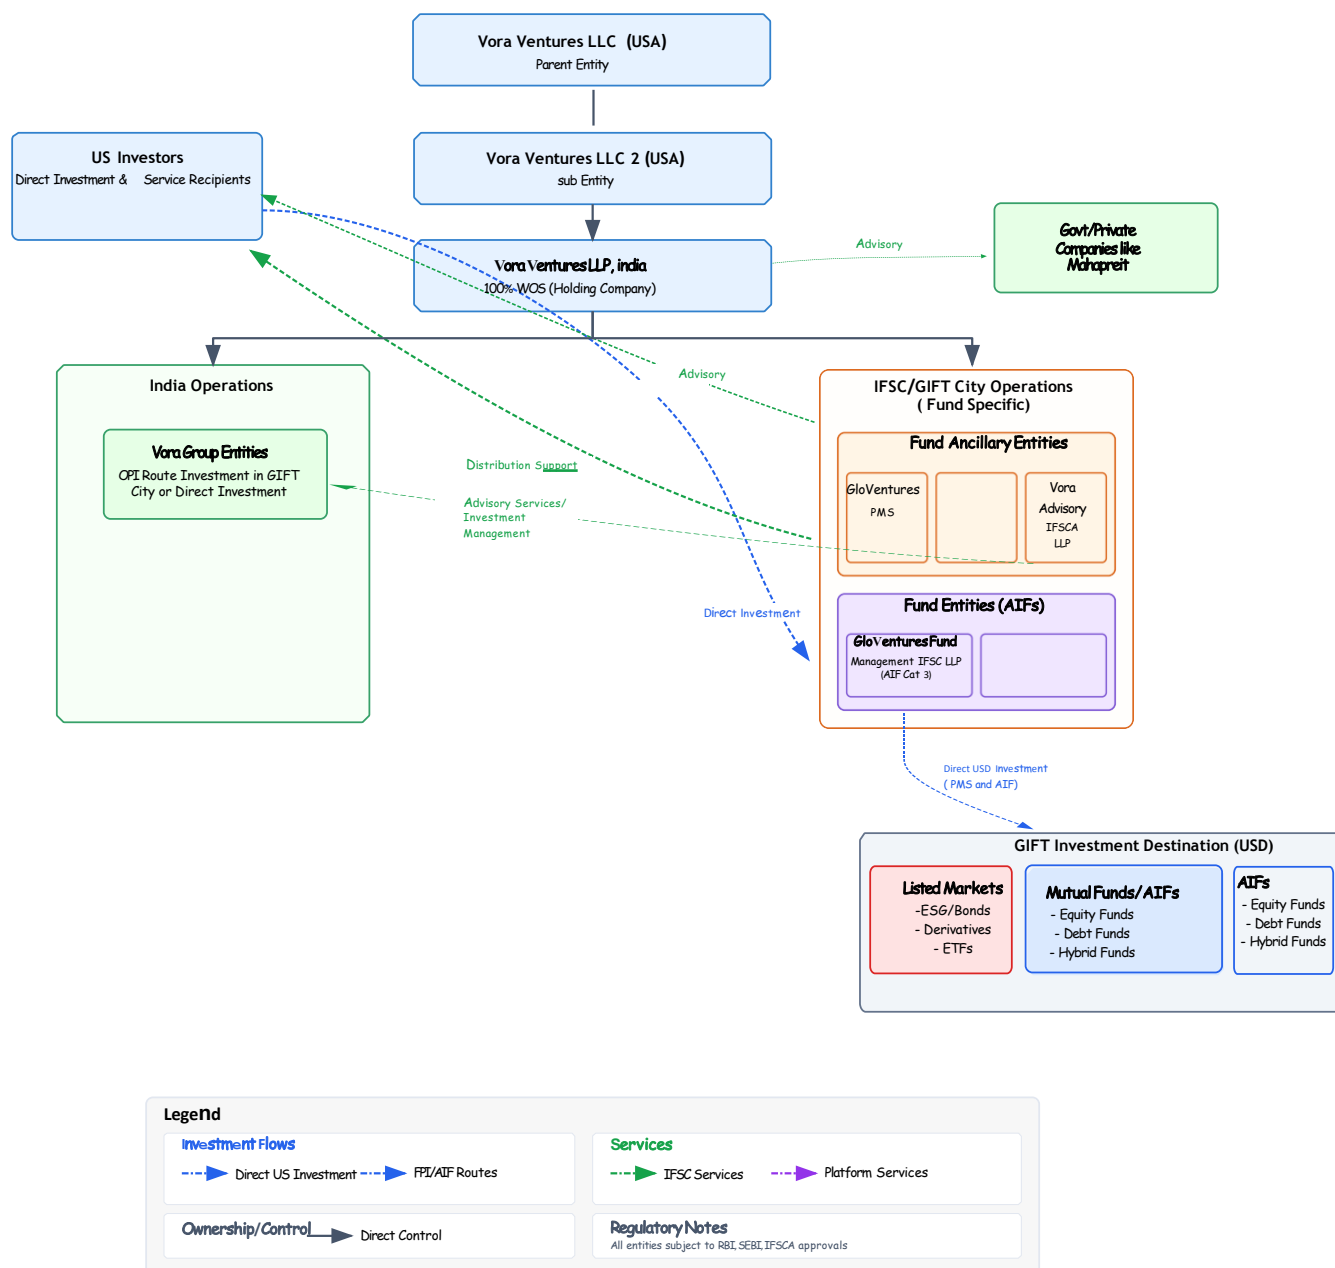

- Financial News APIs: Global market news.
- Social Sentiment: Twitter, Reddit analysis.
- Analyst Reports: Expert market opinions.

Trading Integration

- One-click trade execution (Buy/Sell/Trade).
- Automated portfolio rebalancing.
- Multi-broker AI connectivity.
- Advanced trade confirmation.

Vora Ventures Organization Structure (Stage 1)

Investment Flow and Service Relationships

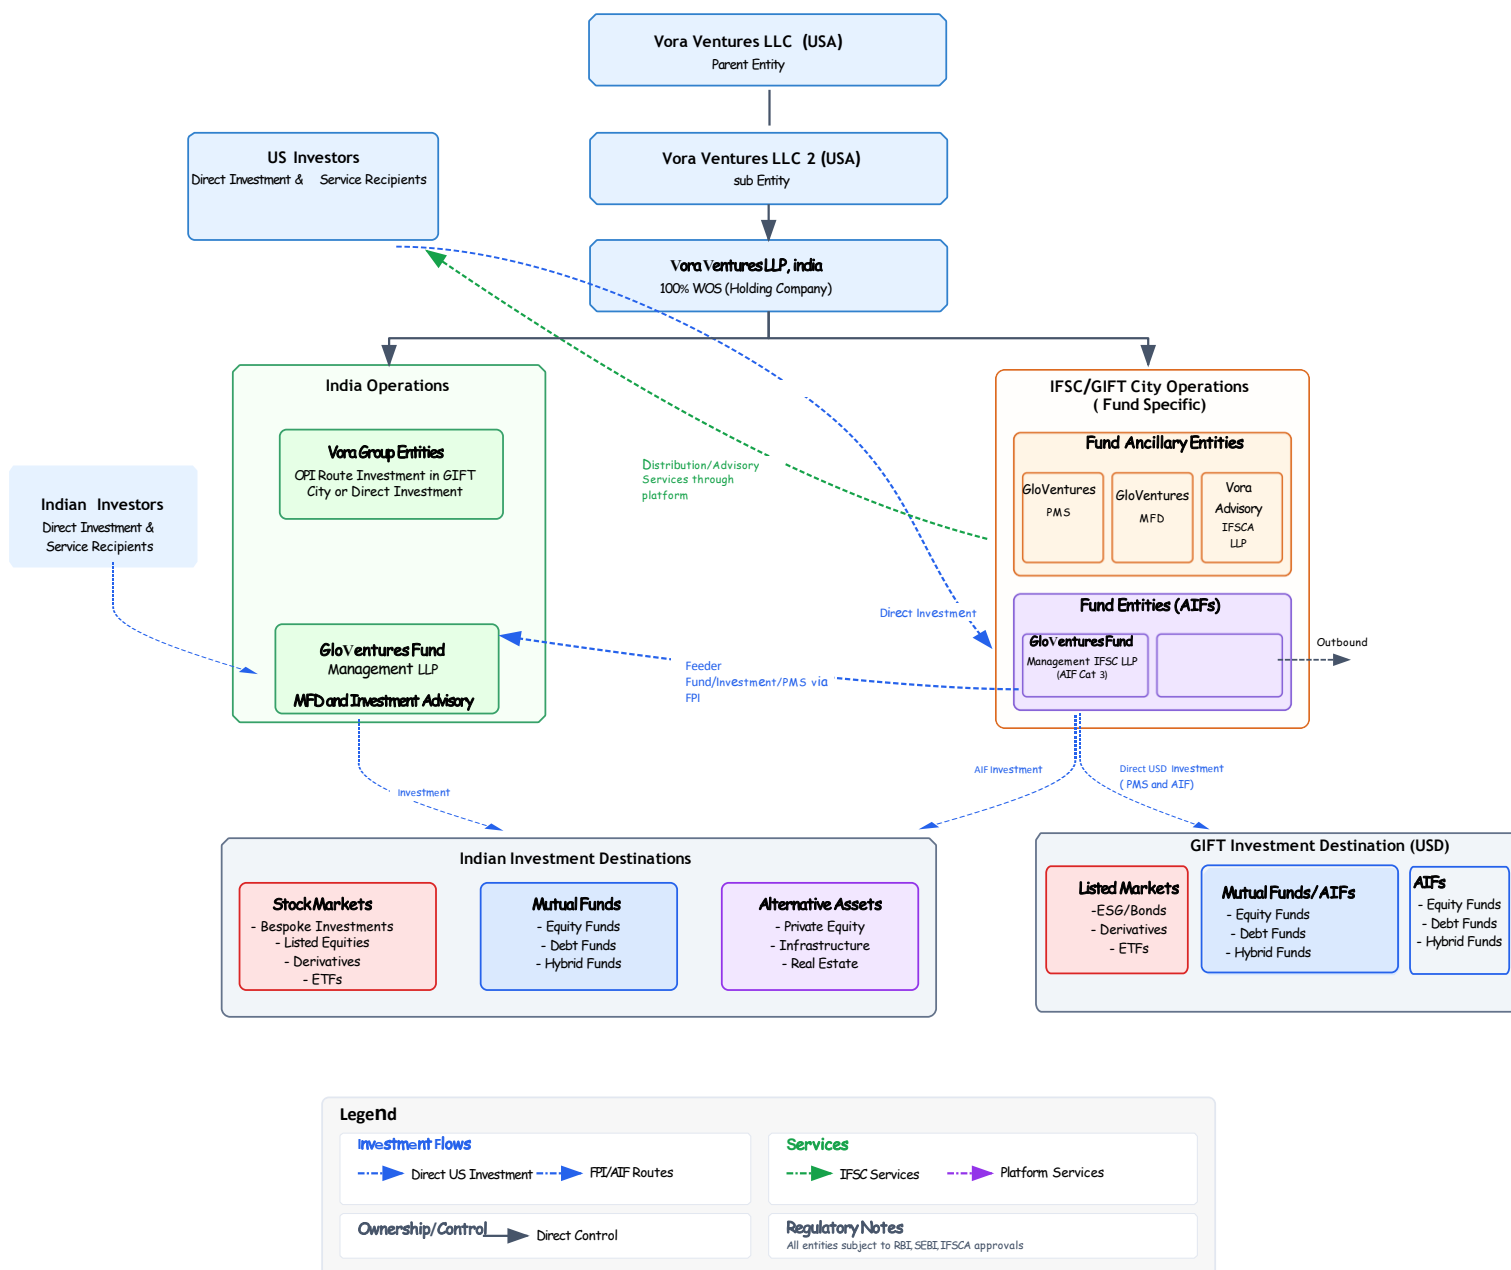

phase 1 (MVP, Internal)- (can happen without regulatory approvals, 90-120 days)

- ELEVATE Models live (with data pipes integrations and prop trading) we can use third party brokers for this – Prop Trading
- Bare bones Algo trading (prop trading)
- AI Architecture (without implementation)
- Portfolio dashboards

Vora Ventures Organization Structure (MVP Stage 2)

Investment Flow and Service Relationships

phase 1 (MVP, Internal)- (can happen without regulatory approvals, 90-120 days)

- ELEVATE Models live (with data pipes integrations and prop trading) we can use third party brokers for this – Prop Trading
- Bare bones Algo trading (prop trading)
- AI Architecture (without implementation)
- Portfolio dashboards

Stage 1: MVP Stage – Establishing the Foundation

(Jan 2025 - July 2025)

What We Are Doing (Key Steps):

- **Setting Up Core Entities** – Establish **Vora Ventures LLC (USA)** as the parent entity and **Vora Ventures LLP (India)** as the holding company.
- **Creating Investment Pathways** – Enable **direct investments from US investors** into India through **FPI (Foreign Portfolio Investor) routes** and **AIF (Alternative Investment Fund)**.
- **Building Fund Management Capabilities** – Establish **GloVentures Fund Management IFSC LLP (AIF Category 3)** in GIFT City to manage investments.
- **Launching Initial Investment Options** – Focus on **listed equities, PMS, ETFs, and mutual funds**.
- **Providing Advisory & Distribution Support** – Set up **Vora Advisory IFSCA LLP** and **GloVentures PMS** for fund distribution and advisory services.
- **Regulatory Compliance & Approvals** – Ensure **RBI, SEBI, and IFSCA approvals** for seamless operation.
- **Developing Investor Trust** – Implement **transparent structures and investor-friendly fee models**.
- **Establishing Digital Presence** – Begin work on **FinTech integration** for seamless investment processing.
- **Fundraising Strategy**: Raise initial capital from friends, family, and early-stage investors.
- **Target Investment Sectors**: Public equities, mutual funds, and PMS-based strategies.
- **Target AUM**: \$3 M

Key Benefits:

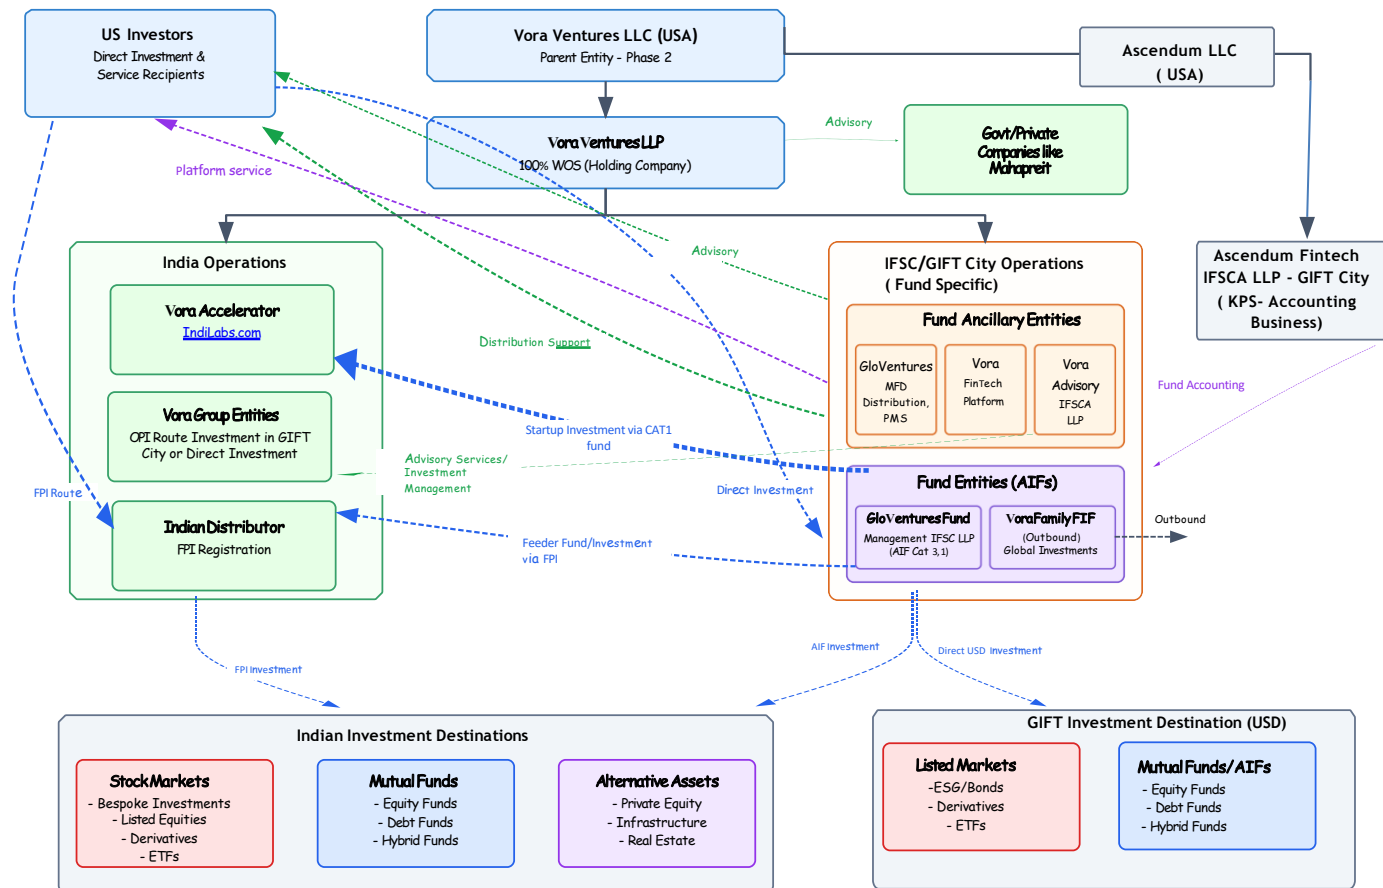

- **For Investors**: Provides easy access to Indian markets through regulated channels.
- **For Vora Ventures**: Establishes the foundation to attract global capital and build credibility.

Revenue Sources:

- **Fund Management Fees for AIF** (0.5-2% of AUM)
- **Mutual Fund Distribution Income** (0.5-1% from Fund Houses, No cost to investors)
- **Advisory Service Fees** (Success-based model)
- **Transaction Fees from Investment Activities**

Vora Ventures Organization Structure (2nd Stage- 180 days- Oct-25)

Investment Flow and Service Relationships

Phase 2 (MVP, External)-
(with regulatory approvals for AIF,
180 days)

Stage 2: Expansion – Adding More Investment Options **(Aug 2025 - July 2026)**

What We Are Doing (Key Steps):

- **Expanding India Operations – Launch Vora Accelerator (IndiLabs.com) to support startups and alternative investments.**
- **Diversifying Investment Vehicles – Add private equity, real estate, and infrastructure investments through AIFs.**
- **Strengthening IFSC Fund Management – Expand GloVentures Fund Management IFSC LLP to handle outbound investments.**
- **Introducing Platform Services – Launch Vora FinTech platform (InvstIN.com) to digitize investment services.**
- **Enhancing Fund Offerings – Start multi-asset class investments like ESG bonds, debt funds, and hybrid funds.**
- **Strengthening Cross-Border Investments – Facilitate investments from India to global markets through structured feeder funds.**
- **Developing Strategic Partnerships – Collaborate with international financial institutions and investment banks.**
- **Scaling Investor Base – Expand reach to HNIs, family offices, and institutional investors.**
- **Fundraising Strategy: Raise capital from institutional investors, venture funds, and large HNIs.**
- **Target Investment Sectors: Private equity, infrastructure, real estate, ESG funds, and high-yield debt instruments.**
- **Target AUM: \$20-100M**

Key Benefits:

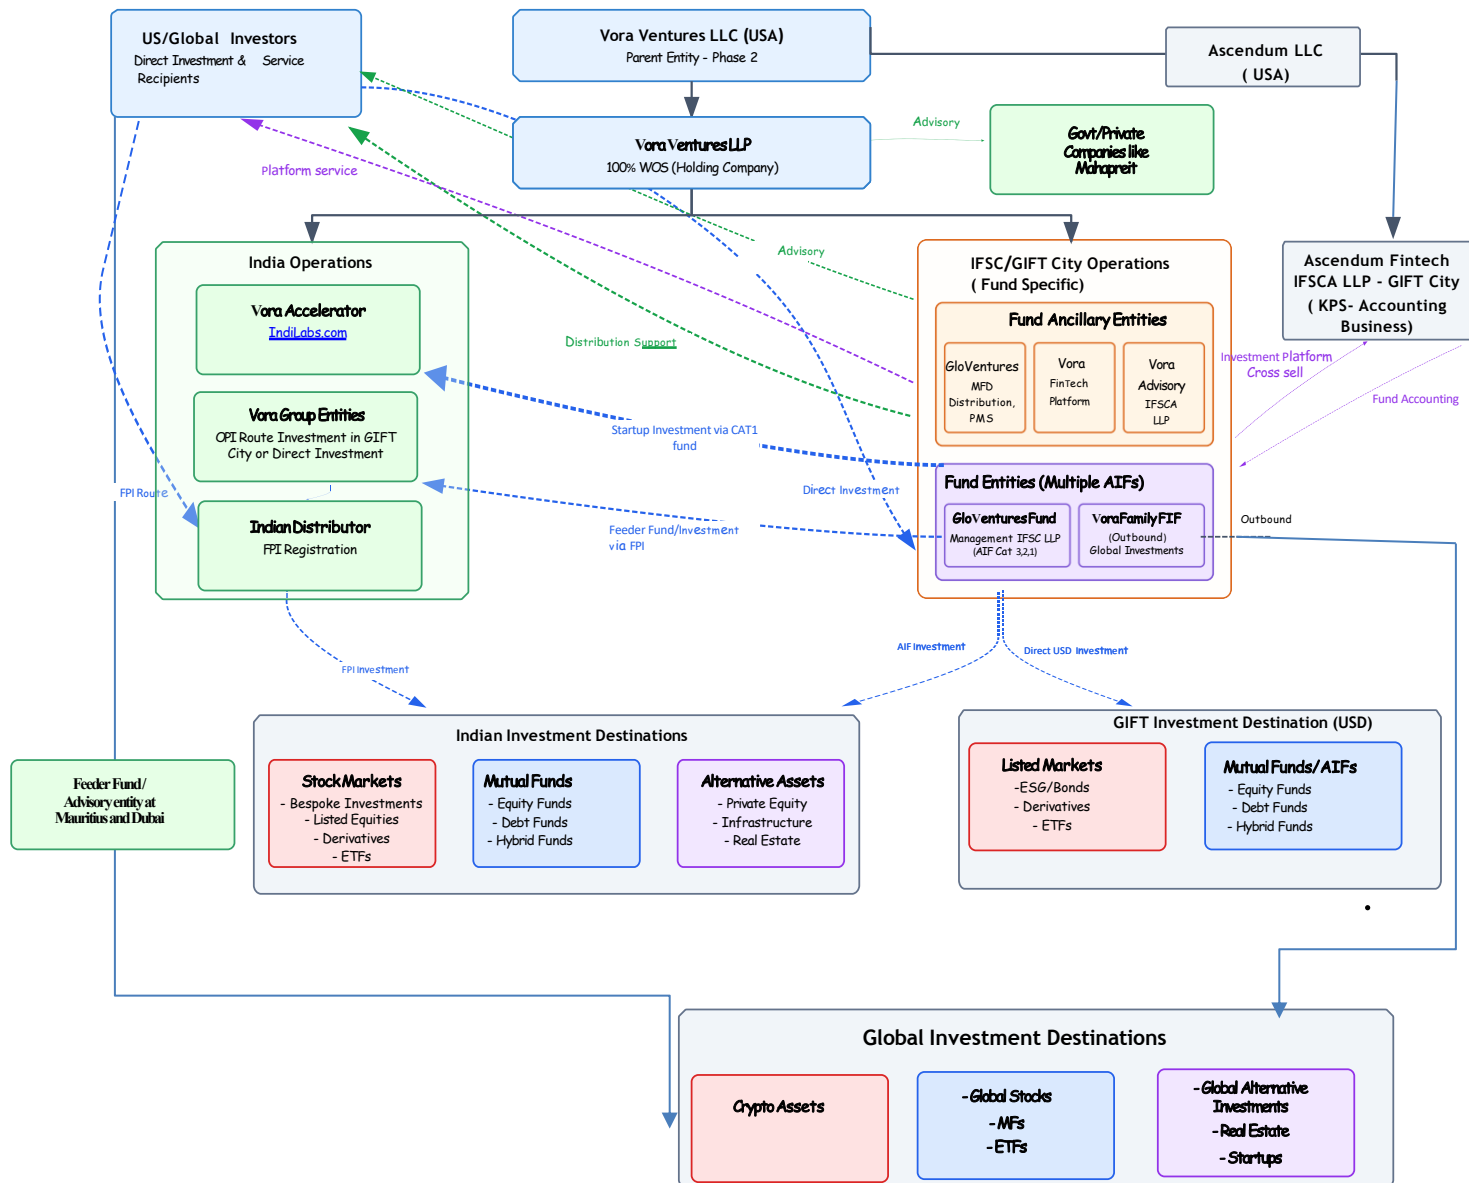

- **For Investors:** More diversified investment opportunities including real estate, private equity, and infrastructure.
- **For Vora Ventures:** Strengthens fund management capabilities and revenue streams.

Revenue Sources:

- **Increased Mutual Fund Distribution Income (0.5-1% from larger AUM)**
- **Alternative Investment Management Fees (1.5-2.5%)**
- **Performance Fees (15-20% of profits)**
- **Platform Fees from FinTech Services**
- **Real Estate & PE Deal Fees**

Vora Ventures Organization Structure (3rd Stage)

Investment Flow and Service Relationships

Stage 3: Scaling Globally – Full-Fledged Investment Ecosystem

(Aug 2026 - July 2027+)

What We Are Doing (Key Steps):

- **Expanding to Global Investors** – Open investments for international investors, not just US-based.
- **Introducing Global Investment Destinations** – Establish **Mauritius & Dubai** feeder funds for seamless **cross-border** investments.
- **Adding Crypto & Alternative Assets** – Provide exposure to **crypto** assets, global stocks, ETFs, and global venture capital.
- **Enhancing Advisory & Fund Structuring** – Create **dedicated advisory entities** for global investors.
- **Strengthening the Tech Platform** – Expand **Ascendum Fintech IFSCA LLP** to integrate **AI-driven investment recommendations**.
- **Becoming a Leading Investment Hub** – Position **Vora Ventures** as a **one-stop destination** for global investors seeking Indian & international opportunities.
- **Scaling Institutional Collaborations** – Secure partnerships with **global hedge funds and asset managers**.
- **Establishing Multi-Currency Investment Options** – Enable **USD, EUR, and INR-based** investments.
- **Fundraising Strategy:** Attract **sovereign wealth funds, global asset managers, and pension funds**.
- **Target Investment Sectors:** **Global equities, crypto, venture capital, structured finance, and multi-asset portfolios**.
- **Target AUM: \$500M+**

Key Benefits:

- **For Investors:** Access to **global assets** including **crypto, venture capital, and international funds**.
- **For Vora Ventures:** Expands brand recognition, attracts **global capital**, and enhances revenue diversification.

Revenue Sources:

- **Global Mutual Fund Distribution** (Multiple geographies)
- **Global Fund Management Fees**
- **Cross-Border Transaction Fees**
- **Tech Platform Revenue**
- **International Advisory Fees**
