

ARIA: The Investor Pitch Deck (Part 1/8)

The "Why": The Disruption (Act 1)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Repo:** Use the style from the `deckv3` GitHub repo.
- **Palette:** "Institutional Trust 2.0" (Dark).
 - Background: Midnight Blue (#0D163A) or pure #000000 (per snapshots).
 - Primary Text: Vault White (#F8F9FA).
 - Secondary Text: Limestone Grey (#A0AEC0).
 - Primary Accent: Electric Teal (#00F0B5).
 - Secondary Accents: Purple, Green, Red (per snapshots).
- **Typography:**
 - Headers (H1, H2): Inter (Bold, Wide-tracked).
 - Body Text (p): Inter (Regular, 16-18px).
- **Layout:** All slides are widescreen (16:9), clean, with generous negative space.

SLIDE 1: THE TITLE SLIDE

- **DESIGN & UI/UX:**
 - **Visual:** Utterly minimal. Centered.
 - **Logo:** The "Ascendant Mark" logo (the stylized "A" we discussed) glows subtly with the Electric Teal accent.
 - **Text:** Below the logo, the word "ARIA" in the Inter font (Bold, all-caps, wide-tracked). Below that, the tagline.
- **CONTENT & TEXT (Script):**
 - (Logo)
 - (H1) **ARIA**
 - (H2, smaller) **The Virtuoso Intelligence for Global Wealth**
 - (Footer, small font) Backed by Vora Ventures | Prototype Operational | November 2025
- **[INTERNAL NOTE]:** *This slide immediately establishes the new brand, our Vora backing, and our "prototype-first" credibility (purging all fake traction).*

SLIDE 2: THE EXECUTIVE SUMMARY

- **DESIGN & UI/UX:**
 - A clean 2x2 grid. Electric Teal for icons.
- **CONTENT & TEXT (Script):**
 - **THE OPPORTUNITY:** A "once-in-a-generation" disruption. 46% of HNWI's are switching advisors as they demand modern tools, alt access, and global exposure.
 - **THE PROBLEM:** HNWI's/NRI's are locked out of the \$5T India market and are drowning in complex private asset paperwork (K-1s/LPAs).
 - **OUR SOLUTION: THE "ARIA" PLATFORM:** A "Digital Family Office OS" with a hybrid GTM:
 1. **B2C Vision:** A direct platform for tech-savvy HNWI's.
 2. **B2B2C "Wedge":** An exclusive "AI Sidekick" for CPAs (via our Vora/Ascendum channel).

- **THE ASK:** Raising **\$5M Seed** to launch our "India Gateway Fund" (Phase 1) and build "The ARIA Data Engine" (Phase 2).
- **[INTERNAL NOTE]:** *This re-frames the entire company around our new, credible "Hybrid GTM" and "Wedge & Expand" strategy.*

SLIDE 3: THE AGENDA

- **DESIGN & UI/UX:**
 - A simple, visual 5-step horizontal stepper, like a minimalist timeline.
- **CONTENT & TEXT (Script):**
 - (H1) **Our Story in 5 Acts**
 - 1. THE DISRUPTION (The "Why Now?")
 - 2. THE ARIA STRATEGY (Our "Wedge & Expand" Plan)
 - 3. THE UNFAIR ADVANTAGES (Our 3 Moats)
 - 4. THE VALIDATION (What's Real Today)
 - 5. THE BUSINESS (The \$5M Ask)

SLIDE 4: ACT 1 - THE DISRUPTION

- **DESIGN & UI/UX:**
 - Clean, bold title slide for the first section.
- **CONTENT & TEXT (Script):**
 - (H1) **ACT 1: THE DISRUPTION**
 - (H2) **The "Great Wealth Migration" is Happening Now**

SLIDE 5: THE MARKET IS IN MOTION

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* layout from Screenshot 2025-11-12 at 22.38.26.jpg.
 - A 1-2 layout. Large title on the left, three stacked "Growth Driver" boxes on the right (with Electric Teal, Green, and Purple accent colors).
- **CONTENT & TEXT (Script):**
 - (H1) **Market Sizing: The Opportunity**
 - (Use verbatim text from the screenshot for TAM, SAM, SOM, and all three "Growth Drivers" boxes: Demographic Tailwinds, Behavioral Shifts, Technology Adoption.)
- **[INTERNAL NOTE]:** *This slide is a direct, verbatim incorporation of one of your strongest snapshots.*

ARIA: The Investor Pitch Deck (Part 2/8)

The "Why": The ARIA Strategy (Act 2)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Style:** Continue deckv3 style. Dark background, Inter font, Electric Teal accent.

SLIDE 6: THE PROBLEM - "THE ALPHA GAP"

- **DESIGN & UI/UX:**
 - A clean "Us vs. Them" table. "The Old Way" (Red x) vs. "What HNWIs Demand" (Green ✓).

- **CONTENT & TEXT (Script):**
 - (H1) **The Problem: The "Alpha Gap"**
 - (H2) Traditional wealth management is failing its clients.
 - **X WHAT THEY GET (TRADITIONAL):**
 - Reactive, Annual-Only Tax Planning
 - Gatekept Access to Alternatives (Stocks/Bonds only)
 - Impossible Global Access (e.g., India is "too complex")
 - **✓ WHAT HNWIs DEMAND:**
 - Proactive, Daily Tax Optimization
 - Democratized Access to Private Equity, Credit, & Alts
 - Simple, Tax-Free Access to Global Markets (like India)

SLIDE 7: ACT 2 - THE ARIA STRATEGY

- **DESIGN & UI/UX:**
 - Bold title slide for the second section.
- **CONTENT & TEXT (Script):**
 - (H1) **ACT 2: THE ARIA STRATEGY**
 - (H2) **Our "Family Office OS" to Land, Expand, and Dominate.**

SLIDE 8: INTRODUCING ARIA

- **DESIGN & UI/UX:**
 - Use the ARIA Brand Slide design. Midnight Blue/Black background.
 - Visually split the slide. Left side: The "Virtuoso" brand. Right side: The "Advisor" acronym.
- **CONTENT & TEXT (Script):**
 - (H1) **Introducing ARIA**
 - **THE VIRTUOSO INTELLIGENCE:**
 - ARIA is the "orchestrator" of your wealth.
 - She's not a chatbot. She is a team of *executors* that brings harmony to the chaos of your global assets.
 - **THE "AI RISK & INVESTMENT ADVISOR":**
 - Artificial Intelligence
 - Risk &
 - Investment
 - Advisor

SLIDE 9: ARIA'S 3-PHASE "WEDGE & EXPAND" STRATEGY

- **DESIGN & UI/UX:**
 - A clean, 3-step horizontal graphic. Phase 1 -> Phase 2 -> Phase 3.
- **CONTENT & TEXT (Script):**
 - (H1) **Our "Wedge & Expand" Strategy**
 - **PHASE 1: LAND (The "Wedge")**
 - **Product:** The "India Gateway Fund."
 - **Action:** We solve the client's *biggest unsolved problem* first: tax-free India access. This is our "blue ocean" wedge.
 - **PHASE 2: EXPAND (The "Hero")**
 - **Product:** "The ARIA Data Engine."
 - **Action:** We become the "System of Record" by reading all their K-1/LPA documents, making us indispensable to them and their CPA.
 - **PHASE 3: DOMINATE (The "Vision")**

- **Product:** The "Global AI Advisor."
- **Action:** Now that we own the client and see their *full* balance sheet, we cross-sell our "US AI Advisor" (the Arta competitor) to manage the rest.

SLIDE 10: ARIA'S ORCHESTRATION (HOW IT WORKS)

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* 6-column "Agentic Workflow" from Screenshot 2025-11-12 at 22.37.33.jpg.
 - Use the same 6-column layout with color-coded boxes.
- **CONTENT & TEXT (Script):**
 - (H1) **Agentic Workflow: From Query to Portfolio**
 - (H2) Example: HNW Liquidity Event
 - (Use *verbatim text* from the screenshot for all 6 columns: User Input, Orchestration, Agent Analysis, Consensus, Presentation, Execution.)
 - **[Correction]:** In Column 2 ("Orchestration"), *add* • India Gateway Agent to the list of agents.

ARIA: The Investor Pitch Deck (Part 3/8)

The "How": GTM & Act 3 (The Moat)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Style:** Continue deckv3 style. Dark background, Inter font, Electric Teal accent.

SLIDE 11: WHAT ARIA IS (AND IS NOT)

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* "Old Model vs. Our Model" diagram from Screenshot 2025-11-12 at 22.36.48.jpg.
 - Keep the Red Box ("The Old Model") and the Green Box ("Our Model").
- **CONTENT & TEXT (Script):**
 - (H1) **Your Personal AI Investment Committee**
 - (Use *verbatim text* from the snapshot for "The Old Model" and "Our Model." This slide is perfect as-is.)

SLIDE 12: OUR HYBRID GO-TO-MARKET

- **DESIGN & UI/UX:**
 - A two-column layout showing the two parallel channels.
- **CONTENT & TEXT (Script):**
 - (H1) **Go-to-Market: A Hybrid B2B2C Strategy**
 - **CHANNEL 1: B2C (THE "SCALE")**
 - **Who:** The "Tech-Savvy HNW/NRI."
 - **How:** We acquire them directly via content, webinars, and thought leadership (the "Arta Model").
 - **Why:** Builds our brand and captures high-intent clients.
 - **CHANNEL 2: B2B2C (THE "WEDGE")**

- **Who:** The Client's **Trusted CPA**.
- **How:** We arm the CPA with ARIA as an "AI Sidekick" (powered by our Vora/Ascendum partnership).
- **Why:** This is our **exclusive, low-CAC launch channel** to rapidly acquire 1,000s of HNW clients.

SLIDE 13: OUR B2B2C "RIGHT TO WIN": THE VORA/ASCENDUM MOAT

- **DESIGN & UI/UX:**
 - A 4-box "Flywheel" diagram.
- **CONTENT & TEXT (Script):**
 - (H1) **Our "Right to Win" is Built-In Distribution**
 - 1. VORA VENTURES BACKING: Gives us the legal/financial backing and access to the portfolio...
 - 2. ASCENDUM KPS: A Vora company with a **massive, existing network of CPAs** in the US, UK, and Australia.
 - 3. THE CPA NETWORK: Our **immediate, warm sales channel**. We empower them with ARIA...
 - 4. HNW/NRI CLIENTS: The CPAs' existing clients, who are our *exact* target market.
 - **Key Takeaway:** "Arta has to *find* CPAs. We are *launching* with a built-in network. This de-risks our entire seed round."

SLIDE 14: ACT 3 - THE UNFAIR ADVANTAGES

- **DESIGN & UI/UX:**
 - Bold title slide for the third section.
- **CONTENT & TEXT (Script):**
 - (H1) **ACT 3: THE UNFAIR ADVANTAGES**
 - (H2) **Our "Triple Lock" Moat: Exclusive Regulation, Exclusive Distribution, and Superior Technology.**

SLIDE 15: MOAT 1 (PROBLEM): THE \$5T "LOCKED" MARKET

- **DESIGN & UI/UX:**
 - Simple, bold text.
- **CONTENT & TEXT (Script):**
 - (H1) **Moat 1 (The Problem): The \$5T India Opportunity is Locked**
 - (H2) HNWs/NRIs want to invest in India, but are blocked by the "Old FPI Route":
 - • **Complex Red Tape:** 6-month, multi-entity setup
 - • **Crippling Tax:** 30%+ capital gains tax drag
 - • **Currency Risk:** All gains are in INR, not USD
 - • **Repatriation Nightmare:** Getting money out is slow and difficult

ARIA: The Investor Pitch Deck (Part 4/8)

The "How": Moat Deep Dive (Act 3 Cont.)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Style:** Continue deckv3 style. Dark background, Inter font, Electric Teal accent.

SLIDE 16: MOAT 1 (SOLUTION): THE "INDIA GATEWAY FUND"

- **DESIGN & UI/UX:**
 - A clean "Us vs. Them" comparison, or a diagram showing the new, clean path.
- **CONTENT & TEXT (Script):**
 - (H1) **Moat 1 (Our Solution): The Vora/GIFT City "India Gateway Fund"**
 - (H2) Our Vora Ventures partnership gives us an *exclusive, licensed* AIF in GIFT City.
 - **THE NEW REALITY:**
 - 0% CAPITAL GAINS TAX
 - USD-DENOMINATED (No currency risk)
 - 48-HOUR ONBOARDING (vs. 6 months)
 - FULLY REGULATED (by IFSCA)
 - **Key Takeaway: "This is a structural, regulatory moat Arta Finance cannot copy."**

SLIDE 17: ARIA AS "AI FUND MANAGER"

- **DESIGN & UI/UX:**
 - A simple flowchart: [AI Brain] -> [Manages] -> [AIF] -> [Dashboard].
- **CONTENT & TEXT (Script):**
 - (H1) **How ARIA Powers the "India Gateway"**
 - (H2) A US investor *cannot* trade Indian stocks directly. Our "Jarvis/Spark" AI tech acts as the **in-house "AI Fund Manager"** for the Vora AIF.
 - **THE INVESTOR DASHBOARD:**
 - ARIA provides "look-through" transparency into the AI's "thoughts."
 - *"Your India Fund is +18%. This was driven by ARIA's decision to increase allocation to the Auto sector. Click to read the full AI analysis."*
- **[INTERNAL NOTE]:** *This is the critical "AIF vs. Broking" fix. It explains how we use our existing Indian market tech.*

SLIDE 18: MOAT 2: "THE ARIA DATA ENGINE" (PHASE 2)

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* layout from the "Alternative Asset Agent" slide (Screenshot 2025-11-12 at 22.37.25.jpg).
 - Left column: "The Industry Problem". Right column: "AI-Generated Deal Memo."
- **CONTENT & TEXT (Script):**
 - (H1) **Moat 2: "The ARIA Data Engine" (Our "Hero Product")**
 - **THE INDUSTRY PROBLEM (THE "K-1 NIGHTMARE"):**
 - 80% of family office data is trapped in unstructured PDFs.

- • 100-page private placement memos (LPAs).
- • Dozens of non-standard K-1s from different funds.
- • Capital call notices buried in email.
- **OUR AI SOLUTION (ARIA AS "SIDEKICK"):**
 - • Client/CPA drags-and-drops all documents into ARIA.
 - • ARIA reads, understands, and extracts all key investment data.
 - • Generates standardized 1-page memos.
 - • Tracks performance and monitors for capital calls.

SLIDE 19: ARIA: THE "DIGITAL FAMILY OFFICE OS"

- **DESIGN & UI/UX:**
 - A clean, professional table with 3 columns: "Core Task," "Traditional Model (Pain)," "ARIA Platform (Solution)."
- **CONTENT & TEXT (Script):**
 - (H1) **ARIA: The "Digital Family Office OS"**
 - (H2) How ARIA productizes the \$1M/year functions of a traditional UHNWI family office.
 - **Core Task:** Alt Asset Reporting
 - **Traditional Pain:** Manual PDF/K-1 review. 3-6 month data lags. "Excel Hell."
 - **ARIA Solution:** Module 1 (Data): GenAI document ingestion. A real-time "Single Source of Truth."
 - **Core Task:** Portfolio Risk Analysis
 - **Traditional Pain:** Impossible "look-through." Ignores "soft" risks.
 - **ARIA Solution:** Module 3 (Risk): AI-driven liquidity stress-testing.
 - **Core Task:** Succession Planning
 - **Traditional Pain:** Static legal docs. 90% fail at wealth transfer.
 - **ARIA Solution:** Module 2 (Governance): AI-powered scenario modeling for tax/family changes.
- **[INTERNAL NOTE]:** *This is the crucial "Family Office OS" slide based on your text.*

SLIDE 20: ARIA'S 3-PILLAR CAPABILITIES

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* 3-column layout from the "Segment of One" slide (Screenshot 2025-11-12 at 22.36.59.jpg).
- **CONTENT & TEXT (Script):**
 - (H1) **A "Segment of One" for HNW Investors**
 - (Use *verbatim text* from the snapshot for all 3 columns.)
 - **BOX 1: HOLISTIC PORTFOLIO INTELLIGENCE** (The OS)
 - **BOX 2: ADVANCED "TAX ALPHA"** (The US Advisor)
 - **BOX 3: INSTITUTIONAL ACCESS, SIMPLIFIED**
 - **[Correction]:** In Box 3, replace "Alternative Asset Intelligence" with India Gateway Fund and ARIA Data Engine (K-1s).

ARIA: The Investor Pitch Deck (Part 5/8)

The "How": Tech Deep Dive (Act 3 Cont.)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Style:** Continue deckv3 style. Dark background, Inter font, Electric Teal accent.

SLIDE 21: MOAT 3: THE "US AI ADVISOR" (PHASE 3)

- **DESIGN & UI/UX:**
 - **[VERBATIM-INSPIRED SLIDE]** Use the "Tax Alpha Agent" layout (Screenshot 2025-11-12 at 22.37.18.jpg) but with **strategically corrected text**.
- **CONTENT & TEXT (Script):**
 - (H1) **Moat 3: The "US AI Advisor" (Phase 3)**
 - **The Problem with Others:**
 - • Robos (Wealthfront/Betterment): Offer *simple* daily TLH on one account.
 - • Most RIAs: Yearly TLH, miss 80% of opportunities.
 - **Our Approach: *Holistic* Tax-Loss Harvesting**
 - • ARIA scans portfolios **every market day**.
 - • **The HNW Difference:** ARIA optimizes *across* your entire "System of Record" (e.g., uses your **K-1 losses** from the Data Engine to offset your **stock gains**).
 - **The Impact:**
 - (Image from snapshot showing +1.8%)
 - **+1.8%** (Projected) Additional annual return from *holistic* Tax Alpha.
- **[INTERNAL NOTE]:** *This slide is critical. We've fixed the "Wealthfront is monthly" lie. Our differentiator is "holistic," which is a true HNW value prop.*

SLIDE 22: HNW USE CASE: "CONCENTRATED STOCK"

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* layout from "Roadmap: The AI Equity Agent" (Screenshot 2025-11-12 at 22.37.41.jpg).
- **CONTENT & TEXT (Script):**
 - (H1) **HNW Use Case: Solving "Concentrated Stock"**
 - **THE MASSIVE HNW PAIN POINT:**
 - • Executives with \$5M+ in company stock (RSUs)
 - • Founders post-IPO lockup
 - • Tax implications paralyze decisions
 - **USE CASE EXAMPLE (Query):**
 - "Analyze my \$5M position in AAPL. Recommend a tax-efficient diversification plan."

- **ARIA'S RESPONSE:**
 - (Verbatim text from the snapshot's AI Response, showing stock analysis, scores, and recommendation).
- **[INTERNAL NOTE]:** *This slide is a perfect, verbatim use of a great snapshot.*

SLIDE 23: OUR TECH STACK & API-FIRST DESIGN

- **DESIGN & UI/UX:**
 - **[VERBATIM SLIDE]** Use the *exact* layout from "Our Tech Stack" (Screenshot 2025-11-12 at 22.37.52.jpg).
- **CONTENT & TEXT (Script):**
 - (H1) **Our Tech Stack & API-First Design**
 - **PRODUCTION-GRADE STACK:**
 - **Frontend:** React 18 + TypeScript, Tailwind CSS, Recharts
 - **Backend & AI:** Node.js, FastAPI, **LangGraph agent orchestration**, **Multi-LLM integration (GPT-4, Claude)**
 - **BUILT FOR INTEGRATION:**
 - (Diagram showing ARIA connecting to IBKR, Alpaca, etc.)
 - **WE ARE NOT A BROKERAGE:**
 - **Pure-play AI intelligence layer**
 - **No custody risk;** clients keep existing accounts
 - **Plug into existing infrastructure**
- **[INTERNAL NOTE]:** *Another perfect, verbatim slide.*

SLIDE 24: US TECH STRATEGY: "READ VS. EXECUTE"

- **DESIGN & UI/UX:**
 - A clean, two-column comparison.
- **CONTENT & TEXT (Script):**
 - (H1) **Our Credible US Tech Strategy: "Read vs. Execute"**
 - (H2) Our "broker-agnostic" model is a 2-step process:
 - **1. "READ" (Analysis) - (Phase 2)**
 - Tool: **Plaid API**
 - Function: Connects to *any* broker (Schwab, Fidelity, etc.) for **READ-ONLY** data.
 - Product: Powers **"The ARIA Data Engine."** ARIA can see the client's entire net worth and analyze their K-1s, but *cannot* place trades on their Schwab account.
 - **2. "EXECUTE" (Trading) - (Phase 3)**
 - Tools: **Alpaca (alpaca-py) & IBKR (ib_insync)**
 - Function: These are *brokers*, not overlays. We integrate directly.
 - Product: Powers the **"Global AI Advisor."** The client *must have or open an account* with these partners for ARIA to perform execution.
- **[INTERNAL NOTE]:** *This slide is CRITICAL. It adds the technical credibility from our chat, explaining the "Plaid vs. Alpaca" distinction.*

SLIDE 25: WHY WE WIN: OUR "AGENTIC" MOAT

- **DESIGN & UI/UX:**
 - **[VERBATIM-INSPIRED SLIDE]** Use the 3-column layout from "Why We Win" (Screenshot 2025-11-12 at 22.38.16.jpg).
- **CONTENT & TEXT (Script):**

- (H1) **Why We Win: Our Moat**
- **BOX 1: DEEP HNW SPECIALIZATION**
 - • **India Gateway Fund** (Exclusive Moat)
 - • **ARIA Data Engine** (K-1/LPA Processing)
 - • Concentrated Stock Solutions
- **BOX 2: VALIDATED MODEL (WITH A TWIST)**
 - • **Arta Finance Proves It Works:** Raised \$90M+, targets same HNW segment.
 - • **Our "Blue Ocean" GTM:** Arta is B2C. Our Vora/Ascendum B2B2C channel is an undefended, low-CAC beachhead.
- **BOX 3: BROKER-AGNOSTIC PLATFORM**
 - • **We are not a brokerage.**
 - • Pure AI intelligence layer.
 - • No custody risk, no transfer friction.
 - • **The Trust Advantage.**
- **[INTERNAL NOTE]:** *This slide fixes the "Arta is domestic only" lie and replaces it with our much stronger "B2B2C GTM" differentiator.*

ARIA: The Investor Pitch Deck (Part 6/8)

The "What": Validation (Act 4) & Business (Act 5)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Style:** Continue deckv3 style. Dark background, Inter font, Electric Teal accent.

SLIDE 26: ACT 4 - TECHNOLOGY VALIDATION

- **DESIGN & UI/UX:**
 - Bold title slide for the fourth section.
- **CONTENT & TEXT (Script):**
 - (H1) **ACT 4: TECHNOLOGY VALIDATION**
 - (H2) **What's Real Today: A Credible, Proven Prototype.**
 - (Body) "Our investment thesis is not based on projections. It's based on a working prototype, live integrations, and exclusive partnerships."
- **[INTERNAL NOTE]:** *This slide purges all fake traction. It frames this section as "Technology Validation," not "Business Traction."*

SLIDE 27: PROTOTYPE 1.0 (INDIA) - OPERATIONAL TODAY

- **DESIGN & UI/UX:**
 - **Inspiration:** Use the "This is Not a Concept" layout (Old Slide 24 from 94-page deck). A 3-column layout.
- **CONTENT & TEXT (Script):**
 - (H1) **This is Not a Concept: Prototype 1.0 is Operational**
 - **BOX 1: LIVE INTEGRATION:**

- • Zerodha Kite API (India's largest broker) integration is **complete**.
- • **~\$50k test portfolio** is being actively managed by our "Jarvis/Spark" AI.
- **BOX 2: PROTOTYPE METRICS (LAST 3 MONTHS):**
 - • 99.9% Platform Uptime
 - • ~1,200+ Test Trades Executed (Zero Errors)
- **BOX 3: STATUS:**
 - • Prototype 1.0 (India) is fully validated.
 - • **This is the core tech for our "AI Fund Manager."**
- **[INTERNAL NOTE]:** *This is our 100% credible "traction" slide. It replaces all fake AUM/client numbers.*

SLIDE 28: ACT 5 - THE BUSINESS & THE ASK

- **DESIGN & UI/UX:**
 - Bold title slide for the final section.
- **CONTENT & TEXT (Script):**
 - (H1) **ACT 5: THE BUSINESS & THE ASK**
 - (H2) **The \$5M Seed to Scale Our Hybrid B2B2C Platform.**

SLIDE 29: OUR TARGET CUSTOMERS (HYBRID GTM)

- **DESIGN & UI/UX:**
 - A two-column layout.
- **CONTENT & TEXT (Script):**
 - (H1) **Our Hybrid Go-to-Market: B2C & B2B2C**
 - **CHANNEL 1: B2C (THE "SCALE")**
 - **Who:** The "Tech-Savvy HNW/NRI" (e.g., "Arjun, \$25M Net Worth").
 - **How:** We acquire them directly via content, webinars, and thought leadership (the "Arta Model").
 - **Why:** Builds our brand and captures high-intent clients.
 - **CHANNEL 2: B2B2C (THE "WEDGE")**
 - **Who:** The Client's **Trusted CPA**.
 - **How:** We arm the CPA with ARIA as an "AI Sidekick" (powered by our Vora/Ascendum partnership).
 - **Why:** This is our **exclusive, low-CAC launch channel** to rapidly acquire 1,000s of HNW clients.
- **[INTERNAL NOTE]:** *This slide officially re-introduces the B2C vision but frames it correctly alongside our B2B2C wedge, as per your last request.*

SLIDE 30: PRO-FORMA FINANCIALS (PROJECTIONS)

- **DESIGN & UI/UX:**
 - A simple, clear table for assumptions and a bar chart for AUM/Revenue growth.
- **CONTENT & TEXT (Script):**
 - (H1) **Financial Projections (Post-Seed Round)**
 - (H2) *Based on our Hybrid GTM, with a 70% acquisition mix from the low-CAC CPA channel in Year 1.*
 - **YEAR 1 (GOAL):**
 - • 50 CPAs Onboarded + 100 Direct B2C Clients
 - • ~500 HNW Clients Total

- • **\$200M AUM**
- • **\$1.5M ARR**
- **YEAR 3 (GOAL):**
 - • 500 CPAs + 1,000 B2C Clients
 - • ~5,000 HNW Clients Total
 - • **\$2B AUM**
 - • **\$15M ARR**

ARIA: The Investor Pitch Deck (Part 7/8)

The "Who & What": The Business (Act 5 Cont.)

[DESIGN NOTE: LLM INSTRUCTIONS]

- **Style:** Continue deckv3 style. Dark background, Inter font, Electric Teal accent.

SLIDE 31: OUR TEAM & STRATEGIC PARTNERS

- **DESIGN & UI/UX:**
 - A 3 or 4-column layout. Use professional headshots.
- **CONTENT & TEXT (Script):**
 - (H1) **Our Team: Proven Execution & Unfair Backing**
 - **COLUMN 1: FOUNDERS**
 - [Your Name/Photo] (Founder, CEO): "Ex-Google AI/ML. [Your key credential]."
 - [Co-founder Name/Photo] (CTO): "Ex-Goldman Sachs. [Key credential]."
 - **COLUMN 2: STRATEGIC PARTNERS (VORA VENTURES)**
 - [Sachin Shah/Photo] (Partner, Vora Ventures): "Our exclusive partner providing the GIFT City license."
 - [Mahendra Vora/Photo] (Chairman, Vora Group): "Backing from a 30-year, 3,500-person venture studio."
 - **COLUMN 3: KEY HIRES (FUNDING FOR)**
 - Head of Sales (B2B2C): To activate the Ascendum CPA channel.
 - Head of B2C Marketing: To build the direct-to-consumer brand.
 - SEC/Compliance Officer: To manage US RIA registration.
- **[INTERNAL NOTE]:** *This slide is 100% credible and solves the "Anonymous Team" and "Vora Identity Crisis" red flags.*

SLIDE 32: THE ASK: \$5M SEED ROUND

- **DESIGN & UI/UX:**
 - A clean summary. Pie chart for "Use of Funds."
- **CONTENT & TEXT (Script):**
 - (H1) **Raising \$5M Seed to Scale Our "Family Office OS"**

- **USE OF FUNDS (PIE CHART):**
 - • **40% Product & Engineering:** Build the production-grade "ARIA Data Engine" (Phase 2) and Alpaca/IBKR integrations (Phase 3).
 - • **35% Go-to-Market:** Hire B2B sales team (for CPAs) *and* B2C marketing team (for direct).
 - • **25% Legal & Compliance:** Secure SEC RIA registration, SOC2 audits.
- **18-MONTH MILESTONES:**
 - ✓ Secure SEC RIA License
 - ✓ Onboard first 50 CPAs & 100 B2C Clients
 - ✓ Launch "India Gateway Fund" (Phase 1)
 - ✓ Launch "The ARIA Data Engine" (Phase 2)
 - ✓ **Reach \$200M AUM**
- **[INTERNAL NOTE]:** *This slide solves the "Contradictory Valuation" flaw and presents a credible, strategy-aligned use of funds.*

SLIDE 33: THE FINAL PITCH

- **DESIGN & UI/UX:**
 - Clean, bold, centered text on the Midnight Blue/Black background.
- **CONTENT & TEXT (Script):**
 - (H1) **The Market is Moving.**
 - (H2) **The Technology is Ready.**
 - (H3) **We have the Moat.**
 - (H4) **Let's build the "Virtuoso Intelligence" for global wealth.**
 - (H5) **Thank You.**

SLIDE 34+: THE APPENDIX

- **DESIGN & UI/UX:**
 - A simple title slide: "APPENDIX: ARIA's "AI Brain" Deep Dive"
- **CONTENT & TEXT (Script):**
 - (All the technical slides from the original deck, re-labeled):
 - Appendix A: Prototype 1.0 (India Tech Validation)
 - Appendix B: "AI Fund Manager" (Spark/Jarvis Model)
 - Appendix C: ARIA's Core Architecture
 - Appendix D: ARIA's RAG/Data Pipeline
- **[INTERNAL NOTE]:** *This is where all the deep-tech slides from the old deck (like the Zerodha, CGMF, and Sentiment modules) now live. They are for technical due diligence, not the main pitch.*
